

SIXTEENTH STREET SITE FOR CHURCH

All Souls' Trustees to Select Property for Edifice Tonight.

At a meeting of the board of trustees of All Souls' Church, which President T. A. T. attends, to be held tonight, it is expected that the question of a site for a new edifice will be determined. James A. Sample, chairman of the board, has been considering five different sites, four of which will be finally considered. One of the four seems to have met with most favor for several reasons, but chiefly because of location, price, and availability.

The site which is thus favorably considered is said to be that at the northeast corner of Sixteenth and R streets, northwest, which is separated by a narrow alley from the north side of the site of the proposed Scottish Rite Temple, which is to be erected at the southeast corner of Sixteenth and R streets.

There is a plot there under one ownership which fronts 218 feet on Sixteenth and 212 feet on R street, which is considered ample for more than ample for the needs of the new church building and parish house.

Another site, which has met with some favorable consideration is at the northeast corner of Sixteenth and Corcoran streets. This site, however, is controlled by about nine different owners and some extensive improvements upon parts of it.

A third possible site is the northeast corner of New Hampshire avenue and Swan street, just off Sixteenth street and a square and a half south of U street.

Another piece of property under consideration is a 20,000 square foot tract between F and V streets, which is considered ample for more than ample for the needs of the new church building and parish house.

The present property of the church, at the southeast corner of Fourteenth and L streets northwest, represents a value of about \$100,000. Business has grown out of the property and it has become more desirable for business than for church purposes. The congregation desires to dispose of this property and build a new church in a more residential section.

The old church, of which the Rev. T. G. B. Moore is pastor, and which is its interest as the President's place of worship, is interesting as one of the oldest churches in the city. The late Dr. Edward Everett Hale preached many sermons from its pulpit.

Corner Residence Property Sold.
Dr. William H. Wimer has purchased from Ben R. Bradford the three lots at the northwest corner of Twenty-first and R streets northwest for \$12,000. The property fronts sixty feet on Twenty-first street and seventy feet on R street, and contains an area of 3,900 square feet. The price figures about \$3.20 a square foot.

Grading Rapidly Progressing.
E. G. Gumbel, the contractor who is subdividing and grading the Thompson tract which is to become Massachusetts avenue, tonight has put a large force of men, teams, and steam shovels to work and is rapidly getting the rough ground into shape for the final grading. Men and machinery are working night and day, the whole twenty-four hours. Mr. Gumbel's contract with the owners now amounts to \$22,000, probably the largest undertaking of the kind in the history of the district.

Real Estate Transfers.
North Tenth-Highway-United States Realty Company to Frank McNamee, Jr., lot 46 square 488, and lot 160, square 488, 100.

West Tenth-Highway-Charles D. Frost to Helen M. Frost, lot 10, square 488, 100.

Second street north-east-Twenty-first and Twenty-second streets-William C. Hill of all, trustees, Sarah S. Hill, part original lot 2, square 488, 100.

Securities Firm After Higher Opening and Market More Active

RAILROAD SHOWS VERY STRONG AND MARKET ACTIVE IN THE EARLY TRADING.

NEW YORK, March 7.—After the late decline of yesterday's stocks today opened at substantial advances, gained in the early trading, and showed much activity during the morning hours.

In spite of the disquieting feeling in London over American railroads, the market here was particularly strong. At the opening Reading advanced 1/2, Union Pacific, Lehigh Valley, Canadian Pacific and New York Central opened fractions higher and advanced under the active bidding of buying brokers. Missouri Pacific showed the greatest strength, with a gain of a point at the opening, a part of which it lost in the early trading. It advanced again to the opening level before noon and continued strong. The fluctuations of this stock were between limits of 50 1/2 and 51 1/2, showing moderate activity and small fluctuations, opening 1/2 above last night's closing.

The market recognized the fact that the dullness of yesterday could not be accounted for on rational grounds, and the feeling this morning was that stocks should regain at least the higher level of last week. While the action of the railroad presidents relative to rates is distinctly disquieting, it is not so much a cause of concern as it was a few days ago, and it is not likely to depress the market beyond the discounting it has already experienced.

The impression is also widespread that whatever harm may come to speculation through the call of the extra session of Congress is already a thing of the past. It is not doubted that the meeting of that body on April 7 and the tariff tinkering it may inaugurate may have a depressing effect upon securities, but nothing of that sort can happen for a month, and for the time being the market seems to have found its equilibrium.

With the price gradually gaining ground, the volume of business was reduced to small limits and the supply of stocks appeared to have been exhausted in the early trading of the morning. Both sides of the trading forces were content to look on and wait for something to happen which might infuse more life into the situation.

Business in the afternoon was purely professional and seemed to be made up of small dealings to even accounts or for filling the commitments of persons who were seeking small bargains for investment.

In the afternoon the market turned dull, with prices gradually gaining ground. The volume of business was reduced to small limits and the supply of stocks appeared to have been exhausted in the early trading of the morning.
